1.0  **Background of the Prairie Conservation Forum**

1.1. **The Prairie Conservation Forum**

The first Prairie Conservation Action Plan (PCAP) was initiated by World Wildlife Fund Canada and the governments of Alberta, Saskatchewan, and Manitoba late in 1988. It was a five-year blueprint aimed at prairie-wide efforts to conserve and manage native prairie species, communities, and habitats. At the conclusion of this initial prairie-wide action plan, the provinces split up to deliver their own action plans, giving birth to Alberta’s Prairie Conservation Forum.

The Prairie Conservation Forum exists to provide an ongoing profile for prairie and parkland conservation initiatives and to implement the Prairie Conservation Action Plan. It consists of some fifty member organizations that are involved with the prairies and parkland ecosystems, and members represent all three levels of government, non-government organizations, industry, academia, and agricultural and environmental interest groups.

The Prairie Conservation Forum has five broad aims:

(1) Defining desired biodiversity outcomes and measuring progress towards outcomes;

(2) Acquiring and sharing data, information and knowledge;

(3) Advancing understanding and increasing awareness of the native prairie and parkland landscape and its interdependence with the social and economic needs of society;

(4) Collaborating to enhance the conservation and compatible use of native prairie and parkland landscapes; and

(5) Maintaining the stability and building the capacity of the Prairie Conservation Forum.

1.2. **The Vision**

The Vision of the Prairie Conservation Forum is that the biological diversity of native prairie and parkland ecosystems is secure under thoughtful and committed stewardship of all Albertans.

1.3. **Guiding Principles**

The guiding principles of the Prairie Conservation Forum are as follows:

(a) Management responsibilities for native prairie and parkland fall primarily on public agencies (i.e., Federal, Provincial and Local Governments), First Nations and private landowners. The PCF will only support and facilitate discussions concerning actions that contribute positively to the Vision and Mission of the PCF.
(b) The PCF will facilitate networking, information exchange and discussion amongst member organizations and with other jurisdictions outside of Alberta.

(c) Partnership activities are based on the belief that the social and economic benefits which are derived from prairie and parkland ecosystems are dependent on the ecological health of these systems. Therefore, management strategies will be promoted that ensure the ongoing health of these ecosystems.

(d) The PCF Partnership draws together diverse opinions and approaches to ecosystem management. To best ensure the development of collaborative and effective solutions, the Partnership will interact in a manner that is respectful of that diversity.

(e) PCF members will strive to implement PCF programs and activities in their respective organizations in support of the PCF Vision.

(f) The Vision can only be achieved by the efforts of many, including the PCF itself and its member organizations, accompanied by effective working relationships with others who share the vision.

(g) The PCF supports the equitable sharing of social and economic costs and the benefits of maintaining native biodiversity and ecological services among all segments of society.

1.4. Outcomes

The Alberta Prairie Conservation Forum Action Plan is designed to sustain the focus on biodiversity, be relevant to contemporary challenges and align with current trends in environmental governance. The Prairie Conservation Forum believes that the PCAP Vision will only be realized if important strategic or long-term environmental outcomes can be achieved. These outcomes must be closely linked to management and planning decisions by all levels of government and private land owners. These outcomes are closely connected to existing functional ecosystems in prairie and parkland Alberta. Three long term outcomes will be the focus of the PCF:

1.4.1. **Outcome 1: Maintain large native prairie and parkland landscapes**

The existence of intact and fully functioning native prairie and parkland landscapes in Alberta are the best guarantor of future regional biodiversity and environmental quality.

1.4.2. **Outcome 2: Conserve connecting corridors for biodiversity**

Habitat connectivity is essential to maintain native biodiversity and ecosystem function. The conservation and restoration of important corridors will help to maintain functional native prairie and parkland landscapes.

1.4.3. **Outcome 3: Protect isolated native habitats**
Within fragmented landscapes there exist small, isolated pockets of ecological refugia that may be as important for native biodiversity conservation as larger prairie and parkland landscapes. These need to be identified, studied, and possibly protected.

2.0 **Decision-Making Process of the Prairie Conservation Forum**

The preferred method of decision making within the Prairie Conservation Forum is through consensus. However, if that approach is not feasible, decisions of the Prairie Conservation Forum will be recorded through a vote of the attending membership. A motion will be adopted and implemented if it receives an affirmative vote by two-thirds of the members present at a meeting. All members will have an opportunity for input through discussion at a Prairie Conservation Forum meeting.

(a) In the event that a decision is required between meetings, membership votes will be obtained through the appropriate referral mechanism (eg. mail, fax, e-mail, phone).

(b) Minority opinions will be recorded if the member(s) holding those views so request.

All members will receive advance notification and background information concerning upcoming decisions at least 30 days in advance.

When prairie conservation issues are brought to the Forum for comment or deliberation, or when the Forum is asked to provide support for initiatives (research, program proposals, causes, etc.), the Forum will be guided in its deliberations by these Policies and Procedures, as well as by the Alberta Prairie Conservation Action Plan (PCAP).

The Prairie Conservation Forum will register views as a committee on issues which, following discussion, the majority of members feel meet the following criteria:

(a) The issue relates directly to the Alberta PCAP and is significant (i.e. is provincial in scope or is otherwise of a sufficient magnitude to be considered as a significant prairie conservation issue);

(b) Prairie Conservation Forum representation would be useful or will likely make a difference to the final outcome (resolution) of the issue.

3.0 **Membership**

There is an ‘open door’ policy on membership in the Prairie Conservation Forum, and any organization or individual that has interests consistent with the Vision, Mission, and Guiding Principles of the Society and wishes to participate in the work of the Forum, may join the Prairie Conservation Forum on request. In accordance with the Bylaws:
(a) An individual is a member upon clearly indicating that they represent themselves by filing a completed membership application;

The Board will maintain a professional nature, whereby any discipline needed to govern with excellence will be carried out by the Board. Currently, there is no secretary position within the PCF. However, in the event that no coordinator is hired/working for a period of time, a secretary will be chosen by the Board of Directors and will take on the duties of the coordinator as necessary.

### 4.6. Policy Development

The Policies and Procedures of the Prairie Conservation Forum are meant to provide effective parameters and broad guidelines of activities of the Society and the Society’s Board of Directors. The Board of Directors has the responsibility for making policy and can be directed by the following considerations:

(a) Ensure that policies of the PCF are compliant with relevant legislation or regulation, by-laws, and with existing PCF policies or agreements;

(b) Governance policies will be statements of values or approaches that address:
   
   a. Ends/outcomes of projects/decisions that are delivered to specific groups of people;

   b. Constraints placed upon specific positions within the Society (such as the Chair, Coordinator, etc.) that define boundaries of the positions and define acceptable levels of activity, decisions, and organizational activities.

   c. Board governance and how it conceives, carries out, and monitors its own tasks.

   d. The delegation of authority, the relationship and the monitoring of authority.

(c) In setting policy, broad, general statements can be refined into more specific statements if needed;
(d) The Chair and Coordinator are responsible for the implementation of policy within the PCF;

(e) Input on policy will be sought from members, staff, and other Boards of similar organizations.

4.7. **Board of Directors Meetings and Responsibilities**

The Board of Directors will meet at the minimum of three times per year to guide the Prairie Conservation Forum in implementing the Alberta Prairie Conservation Action Plan (PCAP) and related initiatives. Implementation of the PCAP includes:

(a) Constituting a cooperative partnership between different levels of government and non-government organizations in sharing major responsibility for implementing the Alberta PCAP, and also allowing both groups to share their experiences and strengthen mutual goals and objectives;

(b) Assessing and making recommendations on overall priorities for implementation of the Alberta PCAP to those member organizations that are involved in implementation actions. Provide advice to those same members on program or project design and implementation;

(c) Encourage members to tailor their own programs, policies or initiatives to meet the goals of the Alberta PCAP;

(d) Review progress in implementing the Alberta PCAP;

(e) Identify gaps and recommend measures to rectify such areas as inventory deficiencies or new program requirements; and

(f) Encourage coordination and compatibility amongst major conservation-related initiatives such as the Prairie Conservation Action Plans, the North American Waterfowl Management Plan, habitat conservation, wetland conservation, cover programs, protected areas programs, and biodiversity initiatives.

The Board of Directors is also involved in public awareness and education through:

(a) Adopting media communication strategies as appropriate to ensure that significant initiatives and accomplishments are widely communicated publicly; and

(b) Developing educational resources to enhance awareness of the value and importance of biological diversity and Alberta’s native prairie and parkland (If there is an education committee, then they will take over this responsibility).
The Board of Directors will prepare an agenda for Prairie Conservation Forum general meetings and will provide the date(s) and locations of the general meetings.

Board of Directors meetings will be called by the Chair or as directed by the Board with as much notice as possible between Forum meetings, with the best times for Board meetings a month or two in advance of general meetings. Special meetings of the Board may be called on the instructions of any four directors through request in writing to the Chair. The specific business being brought to the meeting must be provided prior to the Chair calling a special meeting, and the meeting will only cover this specific topic.

Decisions of the Executive Committee will be made by consensus. In the event that a consensus cannot be reached, decisions will be made based on a two-thirds majority vote by the Directors present and voting.

5.0 **Employees of the Prairie Conservation Forum**

The coordinator is an independent contractor, and as such, is not an employee or agent of the Prairie Conservation Forum. A contract will be set up and signed on an annual basis by the coordinator and the chair of the PCF, with contracts ending at the end of the fiscal year (December 31). The review will be based on the achievement of tasks completed and adherence to Board policies. A draft memo will be written up by the Review Committee and sent to all of the Directors.

6.0 Spokespersons of the Prairie Conservation Forum

There are various people involved with the PCF that can be termed spokespersons. The official spokespersons are the Chair and the Coordinator, both of whom shall represent fairly the views of the Board of Directors and/or membership on all matters. Other spokespersons may be the Vice-chairman, the Treasurer, the Chair of a committee, and/or the Chair of a project team. All spokespersons are expected to fairly represent the views of the body on which behalf he/she is speaking (eg. the general membership, Board of Directors, committee, project team), and to respect the views of others, including those of members within the PCF and stakeholders outside of the PCF.

While a member who is not an officer or chair of a committee or project team should defer representation to the appropriate officer or chair, the member may represent views on behalf of the PCF if they are significantly familiar with the matter at hand. Such views shall fairly represent the views of the Board of Directors and/or membership on all matters.

Nothing above prohibits any member of the PCF to represent his/her views outside a meeting or other function of the PCF as long as the member makes it clear that the views expressed are his/her personal views.

7.0 Working Committees

Committees other than the Executive Committee may be set up and disbanded as needed by the Prairie Conservation Forum. These committees are made up of Prairie Conservation Forum members, but may, on occasion, involve people that are not members of the Forum. Committees may be set up to:

Committees are required to come up with their own work plans that are reviewed and approved or rejected by the Board of Directors.

Committee updates are given at all member meetings, at which time the membership can voice their opinions on the work plans and deliverable results of these committees.

8.0 **Prairie Conservation Forum General Meetings**

The Prairie Conservation Forum will conduct three general meetings per year, which all members are invited to attend. The Board of Directors will set the meeting agenda, location, date and time, however, the Annual General Meeting will be held in the winter (typically the third Thursday in January), and the other two general meetings will be held in the spring (typically the third Wednesday and Thursday of June) and fall (typically the third Wednesday and Thursday of September). The Annual General Meeting is typically held in Okotoks, whereas the spring and fall meetings will be held in different locations throughout the prairie and parkland region of Alberta. Additional Prairie Conservation Forum meetings may be called at the discretion of the board of directors when circumstances warrant. Notification of the date(s), location and anticipated agenda items will be emailed and/or mailed to all members at least 30 days in advance of the meeting.

The spring and fall meetings will span two days, with the meeting one day and a field trip the other day. Field trips can include anything that is of interest to Prairie Conservation Forum members, such as, but not limited to, visits to parks and natural areas, visits to working farms/ranches, visits to areas experiencing industrial use (such as oil and gas developments), visits to rural or urban communities involved in conservation issues, and visits to structures of importance on the landscape (such as dams, windmills, mines, etc.). There is no field trip associated with the winter meeting, which will only span one day in length. This meeting, termed the Annual General Meeting, will have an agenda that includes, but is not limited to:

The financial statement for the previous year will be provided at the Annual General Meetings.

12.0 Production of Reports and Extension Materials

12.1. Prairie Conservation Forum Action Plans

Prairie Conservation Forum Action Plans are five-year blueprints aimed at prairie-wide efforts to conserve and manage native prairie species, communities, and habitats. Every five years, the current action plan is reviewed and a new, revised action plan is constructed and implemented. Members have a voice in what the new action plan encompasses, however, the action plans all adhere to the basic principles and goals of the Prairie Conservation Forum. Included in (but not limited to) the action plan reports is:

(a) Minister’s foreward, expressing government support of the action plan;

(b) Preface, generally written by the current Chair of the Prairie Conservation Forum;

(c) The current and historical role of prairie conservation in Alberta;

(d) The vision of the Prairie Conservation Forum;

(e) The mission of the Prairie Conservation Forum;

(f) The guiding principles of the Prairie Conservation Forum;

(g) The goals/outcomes of the Prairie Conservation Forum;

(h) Glossary;

(i) List of current membership; and

(j) List of reports, papers, and/or other publications produced by the Prairie Conservation Forum.

Prairie Conservation Forum Action Plans are professionally printed up and distributed every five years.

12.3. **Prairie Conservation Forum Extension Materials**

The Prairie Conservation Forum prints up, or posts on its website, various forms of extension materials/documents for use by members as well as the public. Included in these are:

(a) **Occasional Papers** – Occasional papers are intended to make a substantive contribution to our perception, understanding, and use of the prairie environment. This series offers an alternative to scholarly journals for those authors who would like to get their message into the hands of a wider audience, including landholders, industry representatives, environmental advocates, farmers, ranchers, government and non-government resource management professionals, and members of the broader public.
   
   a. A proposal from a prospective author can be made to the coordinator, who will then take the proposal to the Board of Directors for review and acceptance or rejection;

   b. Occasional papers that take a holistic perspective on issues affecting prairie conservation, that synthesize existing knowledge, that offer practical and applied advice on best management practices, that question existing points of view or that open doors to new ways of seeking harmony and promoting the sustainability of our prairie environment are especially encouraged;

   c. Occasional papers that offer information about new methods/ideas being used in prairie conservation are also accepted, provided that they are being used to
address some of the larger issues faced by prairie conservation and can provide significant insights into methods currently and previously used in the field of prairie conservation.

(b) Prairie Notes – Prairie Notes are intended to provide an open forum for non-technical perspectives on prairie conservation issues. Authors are free to present their insights and ‘world view’ on any prairie conservation issue. A source of material for Prairie Notes is ‘Straight Talk’, a standing agenda item at Prairie Conservation Forum meetings where topical prairie issues are candidly discussed and are usually introduced by an invited speaker.

a. Prairie Notes can be everything from presentations to personal opinions to the presentation of scientific research in a form easily understood by the general public.

(c) Brochures – brochures are typically produced to provide information to the public. There is currently a brochure about the Prairie Conservation Forum, with its vision and goals outlined. Other brochures are produced as needed, such as when the Prairie Conservation Forum was working to establish a provincial grass.

(d) Fact Sheets – Fact sheets are produced to provide specific information to particular groups of people, such as landowners or the general public. They may provide information on anything about particular prairie wildlife species, to grazing management practices, to control of invasive weeds.

(e) Educational Materials – Educational materials are produced to provide resources for teachers, instructors, and professors teaching in all levels of education. An example of educational materials that are produced include the prairie education kit, which includes lesson plans and resources to teachers of grades 7 through 9.

(f) Presentations – A basic Prairie Conservation Forum presentation is available to professionals and members that wish to use it. It includes many important aspects of prairie conservation and serves to teach people about prairie conservation.

(g) Newsletters – Three issues of the Prairie Conservation Forum Newsletter are produced each year and electronically distributed to the membership. The newsletters can offer messages from the Chairperson and/or the Coordinator as well as feature stories on member projects or projects of interest to the membership, committee updates, notification of upcoming PCF meetings, and to give recognition to PCF sponsors.
